

# Cantivex® Shelving Systems.

Cantivex®

Efficient.  
Modular.  
Adjustable.

Developed for the demanding healthcare and sterile laboratory environment. Ideal storage solutions for the medical sector.

**INTRODUCING** the all new revolutionary Cantivex® wall mount storage system from Novalok. The Novalok Cantivex® system is a revolutionary fully modular wall mounted storage system. Designed and developed over the last 5 years as a result of extensive market research into the existing

practices and efficiencies of storage within sterile environments world-wide. Cantivex® is especially developed for the demanding healthcare and sterile laboratory environment but could also be used potentially in many other applications.

# NOVALOK

ADVANCING INNOVATION

## Cantivex Shelving Systems.

**INCORPORATING** a unique epoxy powder coated aluminium inconspicuous top "Pendant" mounting rail and base "Fender" anchor rail (attached as a part of the wall lining from construction stage or retro fitted afterwards) the Cantivex® storage rail system can cover the entire length of a wall or just part of. The Cantivex® system allows mounting of shelves, cabinets, benches, IV equipment and many other fixtures at any point along a wall without the need to accommodate internal wall fixing points or hidden feeder pipes or wires.

## Built to last.

Cantivex® incorporates New Zealand's most popular Novex shelf panels that have been specifically designed for the demanding sterile environment within the healthcare sector.

## Why Cantivex®.

*The Cantivex® system is not only aesthetically pleasing, but also robust and practical.*

The new Cantivex® system is fully modular and built to last. Shelves are adjustable in 50mm increments vertically, with cantilevering shelves, able to clip in either horizontally or sloping forward for easy product access. Standard shelf depths are 300mm, 450mm and 600mm. Cantivex® is already in use in a number of public healthcare facilities and is currently being specified into contracts by architects nationwide.

Architects and customers New Zealand wide who have been introduced to this exciting new concept have all immediately grasped the fact that cantilever fills a real gap in the market. Simple to install, easy to use and compliant with strict New Zealand hygiene and sterile codes of practice.
